PROJECTS

Weather forecasting (09/2022-10/2022)

I developed this project using Python, Django,Json, and Html/Css.
Using this website we can predict weather in worldwide along with temperature, Humidity, Country code etc.
We used openweathermap.org(API).
This API provides real time weather data for any location on earth.

Chat Application (02/2023-04/2023)

I developed this real time application using Html/Css/JS.Laravel,php,nodejs and MySQL.
